## OUR STRENGTHS to support you

## OUR PRODUCT SOLUTIONS complete and dedicated

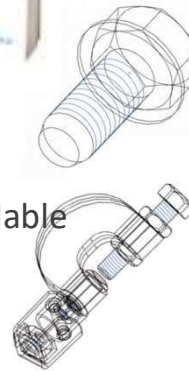

- **A selection of products**

- For industry
- For building construction

- **A library of 3D and 3D BIM components**

- 210,000 references to download - 90 CAD formats available
- 3D software downloadable from our website Modèles 3D available on CADENAS and TRACEPART

### FIXING FOR INDUSTRY

[See the ranges](#)

### FIXING FOR INFRASTRUCTURE

[See the ranges](#)

### Special items

- Parts on plan (cold forging, hot forging, bar turning, cutting,...) according to requirements specification
- All materials (Steel, Stainless steel, Brass, Copper, Plastics,...)
- All finishes (Hot-dip galvanizing, Zinc plating, Geomet®, Deltaprotekt®, Chrome plating, Nickel plating... Following desired SP resistance)

### Additional Services

-  • Online orders
-  • Free download of 2D / 3D and 3D BIM plans
-  • Generation of electronic catalogs

## SERVICES FOR OUR CUSTOMERS

### Solutions for better productivity

- **Innovation**

Our global vision of the fastening business allows us to find the **optimum solution for your assemblies.**

- **Rationalization - standardization**

Our goal is to help you manage **the minimum number of references while optimizing** assembly costs.

- **Traceability**

We manage **the traceability of your safe products** for you, right up to the edge of your assembly lines.

- **Catalog products**

Catalog products We integrate **your catalog products** into our supplies as well as in the supply chain dedicated to your company.

- **Additional services**

We meet your requirements for your **personalized labels with your reference** on each box, as well as **your specific box request.**

- ✓ COMPLIANCE WITH THE SPECIFICATIONS
- ✓ POSSIBILITY OF SPECIFIC BOXING
- ✓ CUSTOM LABELS
- ✓ TRACEABILITY

## SERVICES FOR OUR CUSTOMERS

Tailor-made solutions to secure your fixing portfolio

- **Products**

We have a **library of 3D components** from 210,000 references to download in 90 CAD formats available. We create **your fixation database** to streamline your designs.

- **Supply - chain**

We simplify the supply system for your production lines. Key indicators allow us **to adapt your supply chain in real time.**

- **Skills transfer**

We organize the transfer of **technical, product and logistical skills.**

- ✓ 3D LIBRARY
- ✓ REAL-TIME ADAPTATION
- ✓ TRAINING

## SERVICES FOR OUR CUSTOMERS

Reliable and efficient solutions for the management and supply of fasteners

- **Reduction of management costs**  
We **fully** manage your fastening **stock**. We provide fastening products directly on your **assembly lines**.
- **Securing your stock of fasteners**  
We improve your **internal logistics** thanks to a **simple process**.
- We integrate **your stocks into our logistics platforms**.  
We deliver your products to you based on **your actual consumption**.
- We ensure the **traceability of your fixing products**.

- ✓ REDUCTION OF MANAGEMENT COSTS
- ✓ STOCK SECURITY
- ✓ EASY INTEGRATION INTO YOUR LOGISTICS DIAGRAM
- ✓ KEY INDICATORS ON THE INTERNET

## SERVICES FOR OUR CUSTOMERS

Logistics solutions for better service to our customers

**18 000** stored references

**96% availability rate**

**60 000** storage bins in automated preparation

**12 000** pallet storage locations

**Reliability** of preparations and shipments

**Product Traceability management**

**Management of the delivered quantity**

**Adaptability** and proximity

**International** deliveries

- ✓ REAL-TIME AUTOMATED WAREHOUSE
- ✓ AVAILABILITY, RELIABILITY, REACTIVITY

# ENVIRONMENTAL COMMITMENTS and our priority objectives concerning sustainable development

## Being a responsible employer

- Actions for health, safety and quality of life at work: 100% healthcare policy
- Ensuring equal opportunities and diversity, and combating all forms of discrimination and harassment
- Integrating people with disabilities and keeping employees in employment
- Prioritising social dialogue
- Integration and development of skills and careers
- Encouraging employee involvement

## Being a committed player in environmental protection

- Investment in the sustainable management of rainwater and waste water

## Consuming and purchasing responsibly

- Reduced energy consumption and greenhouse gas emissions by reducing building energy consumption, by producing renewable energies and by reducing transport consumption.
- Waste disposal, recycling, reduced packaging by educating employees in these practices.
- Responsible purchasing: consideration of environmental impact towards our suppliers.

## Preserving and promoting biodiversity

- Mulching mowing system (with non grass collection) and zero emission trimming.
- No use of non-natural phytosanitary agents.
- More than 180 trees planted on our sites.
- Setting up beehives at all our sites to contribute to pollination.

Did you know?

3.3% absenteeism rate due to workplace accidents (target of 3.7%).

Our buildings integrate healthy and sustainable rainwater management such as drainage of roof rainwater directly into the ground through lost wells and infiltration basins

Saint-Priest Fixation site was the pilot site for increasing the proportion of recyclable waste from 45% in 2018 to 81% in 2022.

Thanks to our beehives, we produce more than 250 kg of honey a year which are then offered to all our employees and customers.

Our will!

Since 2021, we have been able to consolidate our Ecovadis rating, with a score of 67 out of 100. **We were awarded the new Ecovadis silver medal in February 2024**, in connection with the overhaul of the rating system initiated by the assessment platform in early 2024. **We remain in the top 15% of award-winning companies in our sector** for our CSR performance: environmental, social, ethical and responsible purchasing. And we're determined to continue improving in 2025!
